Madrid, Spain

SUMMARY

3D Environment Artist experienced in creating high-quality, optimized game environments from concept through implementation. Proficient with industry-standard tools and modern environment art pipelines, including modular workflows, material layering through masking and vertex painting techniques, trim sheets, and optimization-conscious asset creation. Combines artistic creativity with a systematic, technically driven approach

EXPERIENCE

Astarte Industries — Bellum

2025 — 2026

3D Environment Artist

- Collaborated with artists, designers, and concept artists to create highly realistic environments for an 80-player first-person shooter.
- Created high-quality Nanite-ready assets while implementing optimization strategies to ensure compatibility and strong performance on old-generation console hardware.
- Created detailed environment assets that reinforced the game's atmosphere while adhering to established artistic direction and quality standards.
- Acted as the Environment Department Lead's right hand, providing guidance to other artists, reviewing work, and helping establish efficient workflows and consistent artistic standards.

RedZip Studios — Dead Rails

2023 — 2025

3D Environment & Technical Artist

- Collaborated with a small team to design and build environments for a co-op zombie survival game.
- Designed and implemented a unique stylized visual art style with cel-shading and advanced light-interaction techniques.
- Built modular environment assets to support procedural level generation and replayability.
- Developed and maintained a master material workflow to streamline production and improve optimization, along with other techniques.

Simulation and Serious Games

2023

Lead Artist ACADEMIC PROGRAM — COLUMBIA COLLEGE CHICAGO

- Led and supervised a student art team producing optimized assets for a top Meta VR application.
- Modeled and textured organic assets using high-poly sculpting and low-poly baking workflows.

SOFTWARE

Blender 3D
Adobe Substance Painter
Unreal Engine
Adobe Substance Designer
Adobe Photoshop
Autodesk Maya
3Ds Max
Unity

EDUCATION

B.A. Game Development and Design

Columbia College Chicago
2020 — 2024

High School Diploma

Centro Escolar Solalto
2015 — 2019

AVAILABILITY

Based in Madrid. Open to on-site and hybrid roles in the EU, and to relocation.
